Poomin Wan-arome (Ford)

FULL STACK DEVELOPER | MAIN FRONT-END FOCUS

095-307-4741 | poominzakubgrn@gmail.com
Lat Krabang, Bangkok, Thailand
Portfolio: portfolio-five-nu-74.vercel.app

Full Stack Developer with 4+ years of experience building business websites and web applications, with strong ownership on front-end implementation and growing back-end capability. Skilled in translating design into production-ready UI, integrating APIs, working with SQL databases, and supporting maintainable systems from interface to back-office flow.

CORE STACK

HTML5 | CSS3 | JavaScript | jQuery | React | Next.js Full Stack | TypeScript | PHP / Laravel | REST API | PostgreSQL | MySQL / SQL | Prisma | Tailwind CSS | AI Generating Tools | SEO & Performance | Git / Code Review

PROFESSIONAL EXPERIENCE

MAGIC TECH SOLUTION COMPANY LIMITED
Mar 2023 - Present

Full Stack Developer (Main Front)
Zeer Rangsit, Pathum Thani

- Converted design requirements into production-ready HTML, CSS, JavaScript, React, and Next.js interfaces.
- Handled front-end architecture while supporting full stack work including API integration, form workflows, and back-office features.
- Worked with databases such as PostgreSQL, MySQL, and SQLite depending on project structure and deployment needs.
- Collaborated through Git-based review flow and helped maintain clean, reusable, and responsive UI code.
- Improved website quality with attention to SEO, performance, and smooth user experience across screen sizes.
- Expanded into AI generating workflows to support faster content, idea, and asset production for digital products.

Thai Panich Marketing Co., Ltd. (Thaimart Shop Phitsanulok)
Jan 2021 - Jan 2023

Programmer (Front-End Developer)
Phitsanulok

- Developed front-end interfaces using HTML, JavaScript, CSS, Bootstrap, and responsive design techniques.
- Connected APIs and rendered real business data for day-to-day operation flows.
- Supported UI improvements to make websites easier to use on desktop and mobile devices.

CITCOMS, University of Phayao
Nov 2019 - Mar 2020

Programmer and Training Facilitator
Phayao

- Supported web development and website maintenance for the organization.
- Served as a trainer for KODU workshops and software usage sessions.
- Helped university staff use Microsoft Teams during the COVID-19 online-learning period.

PROFESSIONAL VALUE & WORK STYLE

- **Adaptable to company structure:** Comfortable working with internal workflows, coding standards, and project structures defined by each organization or client team.
- **Front-end to back-office collaboration:** Able to turn design into production UI, connect APIs, handle form and data flow, and support back-end or database-related implementation when needed.
- **Business-focused delivery:** Build responsive, maintainable, and SEO-aware web applications that support real operational use instead of only visual presentation.
- **Confidential project awareness:** Some commercial projects cannot be shown in full detail on a resume, but they involved real-world dashboard systems, admin workflows, API integration, and database-driven features.

HIGHLIGHTS

Experience: 4+ Years
Focus: Full Stack / Main Front
Availability: Hybrid / Onsite / Remote
Start: Within 1 Month

STRENGTHS

- Strong UI implementation from design to responsive production pages.
- Comfortable bridging front-end and back-end tasks in real project environments.
- Hands-on with databases, API integration, and practical problem-solving.
- Quick learner who adapts to project structure and team workflow.
